

LED Follower Node

The EC-Matrix LED follower node allows for driving up to 5 LED outputs via communications with the EC-Matrix master controller. The follower node is self configurable and hot swappable, the unit can be added to or removed from existing systems.

Part Number	Ambient Temperature	IP Rating	Width	Height	Length
	°C				
CN1066-xx	-10 to +70	00	58	46	15
TBC (DIN Box)	-10 to +70	20	110	62	35

- NodeBus interface
